Society have claimed that their political ideals were grounded in evolutionary theory.

The Political Gene: How Darwin's Ideas Changed Politics

To identify the stages of social change [Spencer], divided the society structure, in to three systems, [regulative system], [sustaining system] and [distributive system]. He assumed that, society evolve from one stage to another, when population of the society increases.

Population of society may increase, due to multiple reasons, via conquest, high birth rate, joining with the previously social systems and expropriation.
